# How to Avoid Plagiarism

By: Emerson

---

---

# Understand what Plagiarism Consists of

- Includes direct copy-pasting without proper citation
- Involves paraphrasing without credit
- Uses images or data without permission
- Presents others' ideas as own
- Importance of recognizing forms to avoid unintentional plagiarism

# Promote Research Skills

## Promoting Research Logging

- Encourages note-taking
- Stresses importance of original research

# Enhance Writing Skills

## Teaching Direct Quotes and Paraphrasing

- Proper use of direct quotes
- Effective paraphrasing guidance

# Cite Your Sources Properly

- Provide appropriate citations.
- Use required citation style (APA, MLA)
- Consistently give credit where due
- Use the CRAPP Method

<b>C</b>	Currency: The timeliness of the info
<b>R</b>	Relevance: How the info fits your needs
<b>A</b>	Authority: The source of the info
<b>A</b>	Accuracy: Reliability and correctness of the info
<b>P</b>	Purpose: The reason the info exists

# Utilize Plagiarism Detection tools

## Introduction of Tools

- Grammarly, Turnitin, Copyscape
- Effective usage demonstration

# Seek Peer Review and Feedback

## Encourage Peer Review

- Identify potential issues
- Emphasize constructive feedback
- Prevent unintentional plagiarism
